Newsletter

Volume 5 March 2011

Welcome to the March edition of the DSLC Newsletter. The building is more or less on target, as you can see from the North East Elevation the brickwork is well on its way up and the upper floors are starting to go in. The Archery Gallery floor is well under way. Also the stairs are in place and the fitness floor is complete.

The new sign has now been erected.

North East (Front Elevation).

This a view of the Archery Range taking shape

A view of the Main Hall.
